

VALOR
— ACADEMY —

Mission Statement: “The mission of Valor Academy is to provide a personalized Christian education that supports each student’s unique needs and abilities and fosters creativity, mastery, and excellence.”

Valor Academy is...

1- A dba of Harvest 61 Ministries, Inc, a non-profit 501©3 organization whose mission is to ‘Empower, Encourage, Engage and Equip youth and families.’

2- Inclusive and designed to support children with varied learning needs and abilities. We understand that one size does not fit all. We are also trauma trained.

Valor Academy’s model:

1- **Christ-centered, Christian Education:** Each day begins with Bible study where the students learn not just what is in their Bible but how to study it. Students are challenged and encouraged to develop godly character not just in academics and work ethic but all across life.

2- **Emphasis on Academic Excellence and Mastery:** We want to ensure that they are truly learning. We tailor curriculum to their needs and levels and interests.

3- **Homework Free:** Our goal is that they do the work at school. Evenings are reserved for family. We have found that our students are actually accomplishing more during the day than other schools.

4- **Encouraged Growth and Development:** A student can move ahead of their actual grade level, receive early High School or College credit and pursue areas of special interest or passion. At the same time, struggling students are supported in the subjects in which they are struggling but still allowed to move forward in the subjects in which they can advance at a faster pace. In other words, students are not restrained by their grade level.

5- **Positive Classroom Atmosphere:** We call it the 90-10 Rule. Our goal is to give positive affirmation 90% of the time. We strive to build an atmosphere of positive peer interaction and healthy relationship development.

Valor Academy is Pro-America and the beliefs that founded this great nation. We strive to teach our students to support those who have fought hard to give us the freedom we have.

Robson Academy teaches the value of serving our veterans and our community through regular community service and outreach projects:

- Both Hands
- VOA Empty Bowl
- Toys for Tots
- The Food Bank
- American Legion Aux
- Wounded Warriors
- MOPS

Valor Academy believes in teaching our students the value of hard work and making their own way. Because we keep tuition costs low and affordable for local families, fundraising is required. We teach the students the value of being invested in working to raise money for their school as well as coming up with creative ideas for sustainable income for their school. This leads to opportunities to teach entrepreneurship and the value of small business ownership.

-Valor Spirit Store-students have developed a screen printing T-shirt business where they make and sell Christian T-shirts they have designed, as well as Valor gear, to the local community.

-Both Hands Fundraiser- The students serve a local widow by doing work projects on her home while raising money for their school.
